

# IT&DML Program Overview

Where is everything?

**The IT&DML program is BYOB (Bring Your Own Browser). Built for OPEN using free, online tools. Device agnostic. Ubiquitous access to data. :)**

Tweetable Summary

# Our Learning Management System (LMS)

## Bring your own browser (BYOB) program

- Chrome
- Google Apps for Educators (GAPE)
- Google+
- Google Groups
- Blogs
- Twitter

# BYOB - Bring your own browser

- Chrome - Our Internet browser of choice
- It's what makes Chromebooks run
- Great extensions and apps for Chrome/Chromebooks
- Chrome app for iPad, iPhone, & Android

# Google Apps for Educators (GAPE)

- Google Docs, Spreadsheets, Forms, Presenter
- Google Drive - <http://bit.ly/itdmlfolder>
  - All course materials, & syllabi in private, shared folder
  - Open now...will be locked down in 48 hours
- Google Drive and GAPE apps for iPad, iPhone, Android, and Chrome

# Google+

- A “social network” built by Google...& the glue that holds our program together
- Hangouts for video/voice chat, texting, etc.
- Communities for classroom discussions & resources
- Socialize, connect, & develop your Personal Learning Network (PLN)

# Google Groups

- Our in-house, private discussion group for the [IT&DML program](#)
- Class announcements, Whole group discussions, FAQ items & lists
- Job postings
- Once you're in...you're in...

# Blogs

- My blog - [wiobyrne.com](http://wiobyrne.com)
- TL;DR newsletter - [wiobyrne.com/tldr/](http://wiobyrne.com/tldr/)
- Your blogs (WordPress, Weebly, Blogger...)
- IT&DML blog hub - automatically posted to Twitter (<https://twitter.com/itdml>)

# Twitter

- A micro-blogging service
- 140 characters
- Sharing materials & developing a PLN, just like with Google+

# This first summer

CO 7712 - Foundations of Instructional Technology

ED 7710 - Foundations in Media Literacy

ED 7714 - Media, Technology, & Learning Across the Curriculum

# Extra Items

- Fill out Student Database - <http://bit.ly/itdmldatabase>
- IT&DML folder - <http://bit.ly/itdmlfolder>
- How to succeed...without even trying. :)
- Open, online digital identity
- What are we missing?
